## Capabilities Statement

Freedom Manufacturing, a certified woman owned small business, is a full service machine shop manufacturing component parts for all industries. Established in 1949 as R H Fink, Inc., we have been providing quality manufactured parts for over 70 years. We specialize in small to mid size quantity orders, providing customized service to meet your requirements. Our team will provide the quality and service you expect.

Our qualified machinists have over 150 years of combined experience manufacturing quality parts. Our welders are certified for both Mig and Tig welding.

Our equipment includes

- CNC Lathes with turning capacity - .25 to 20" and up to 36" long.
- CNC Mills, offering 3 axis, 26" by 60" work envelope and 50 taper.
- Rotary surface grinding up to 15"
- Surface grinding – up to 16" x 48"
- OD Cylindrical grinding - 6" Diameter to 12" long
- Punch Press up to 45 Ton
- 100 Ton Hydraulic Press Former
- CNC Sawing up to 12.8"
- Sheet Metal Fabrication
- Certified Mig and Tig Welding

We can also provide the following services:

- Laser and Plasma Cutting
- Gear Cutting
- Heat Treating
- Various Plating
- Wire EDM
- Sink EDM
- Powder coating
- Gun drilling
